What you'll Learn

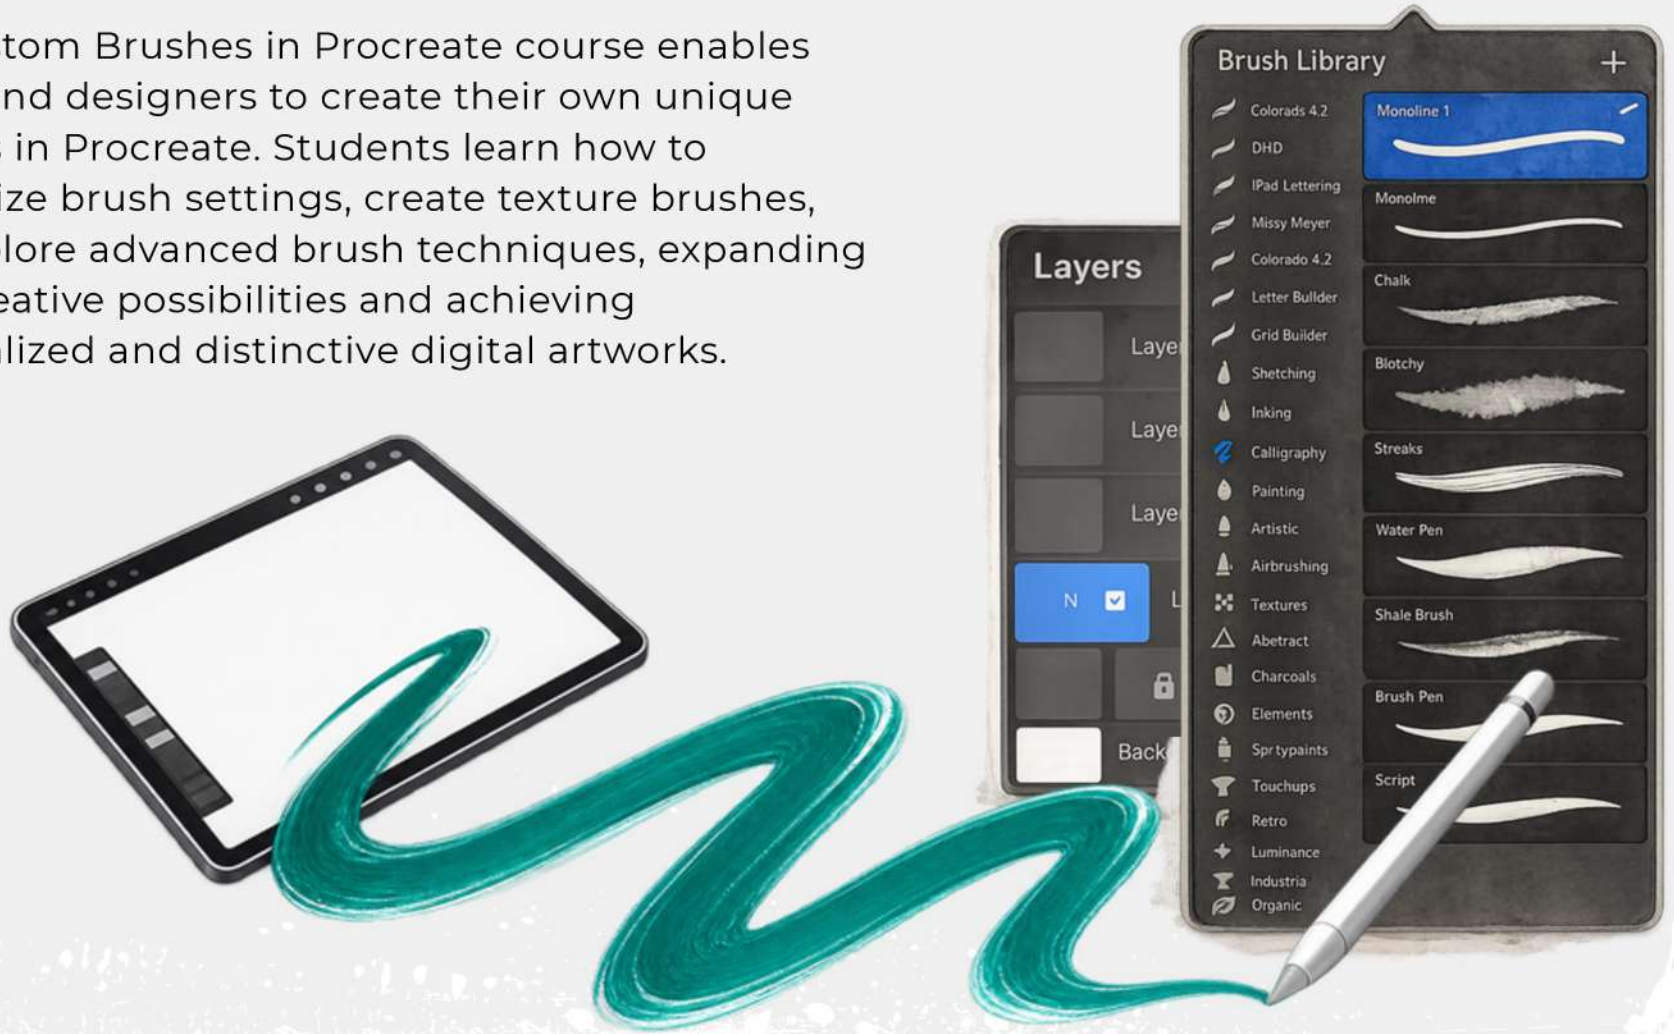

Learn Procreate from Scratch

The Learn Procreate Beginner's Procreate course is a comprehensive program designed to teach beginners how to use Procreate from scratch. It covers the fundamentals of the software, including tools, brushes, layering, and advanced techniques, empowering students to create stunning digital artwork and designs.

Custom Brushes

The Custom Brushes in Procreate course enables artists and designers to create their own unique brushes in Procreate. Students learn how to customize brush settings, create texture brushes, and explore advanced brush techniques, expanding their creative possibilities and achieving personalized and distinctive digital artworks.

Digital Illustrations

Tailored for budding artists and seasoned creators alike, this course unravels the secrets of creating stunning vector illustrations using Procreate's powerful features. From mastering precise lines to crafting intricate details, students will be guided through step-by-step tutorials, unlocking the full potential of Procreate for vector art creation.

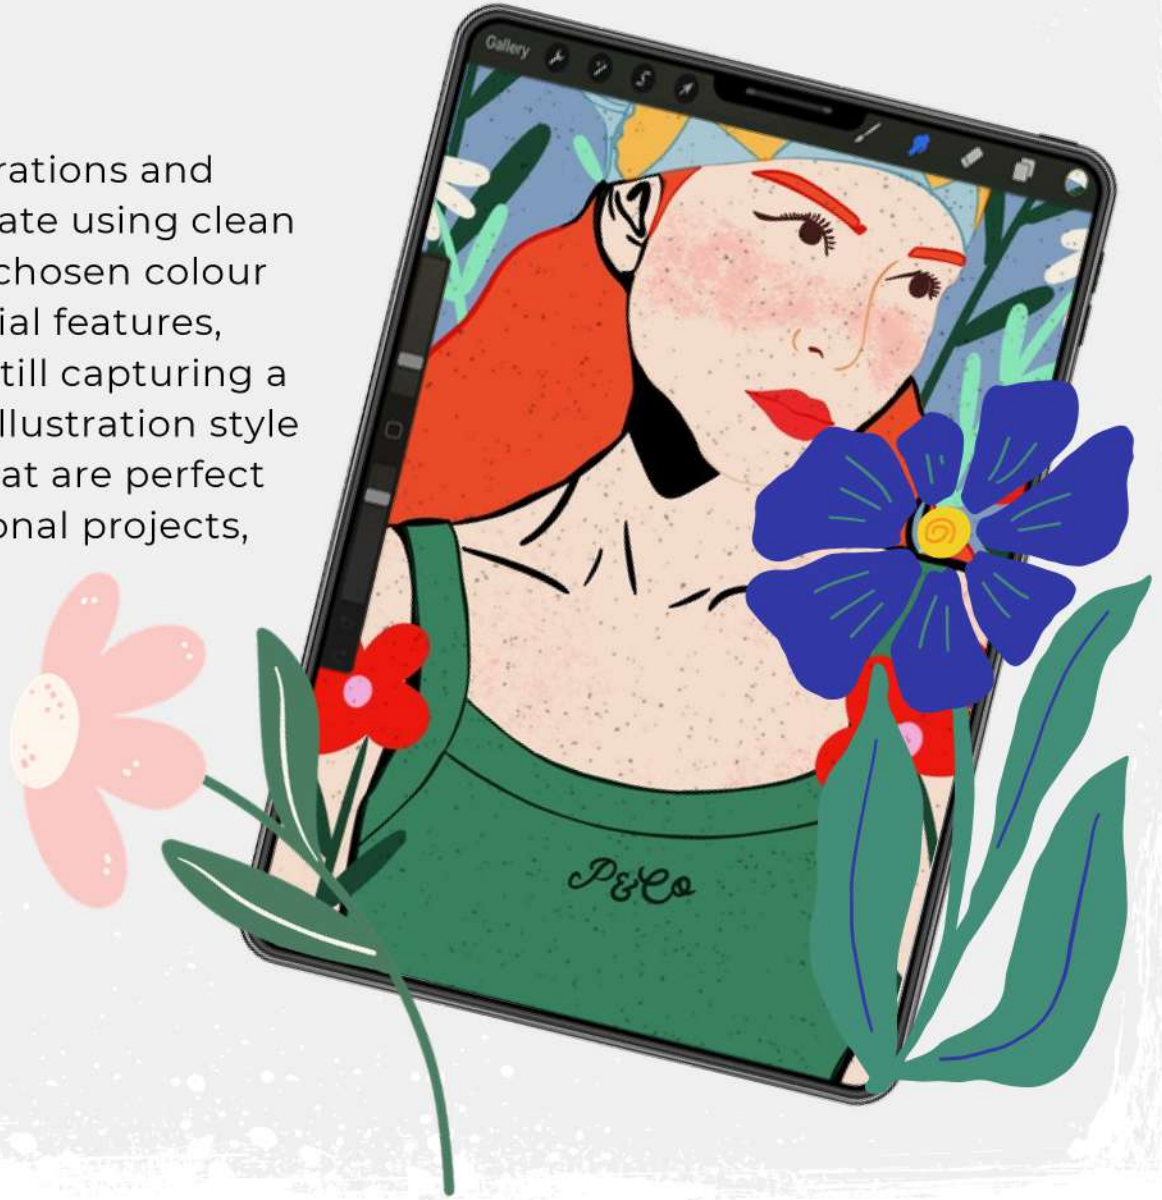

Photo Doodle Art

Learn to transform ordinary photographs into creative, expressive doodle artworks using Procreate. Explore how to combine hand-drawn doodles, playful elements, patterns, and illustrations with real photos to create unique compositions. Turn everyday moments into eye-catching, personalized digital artwork perfect for social media and creative projects.

Flat Lay Painting

Learn to create striking flat 2D illustrations and expressive digital portraits in Procreate using clean shapes, bold outlines, and carefully chosen colour palettes. Explore how to simplify facial features, hair, expressions, and details while still capturing a unique personality. Build your own illustration style and create eye-catching portraits that are perfect for social media, commissions, personal projects, and creative portfolios.

Couple Caricature

Learn to create stunning flat lay illustrations in Procreate by arranging everyday objects into beautifully composed scenes. Master colours, textures, shadows, and details to turn simple objects into eye-catching artwork for your portfolio and creative projects.

Wedding Stage Designing & Decoration

Turn your creative vision into stunning wedding setups with Procreate. Learn to design elegant stages, experiment with colours and décor, and create captivating wedding concepts that bring your ideas to life.

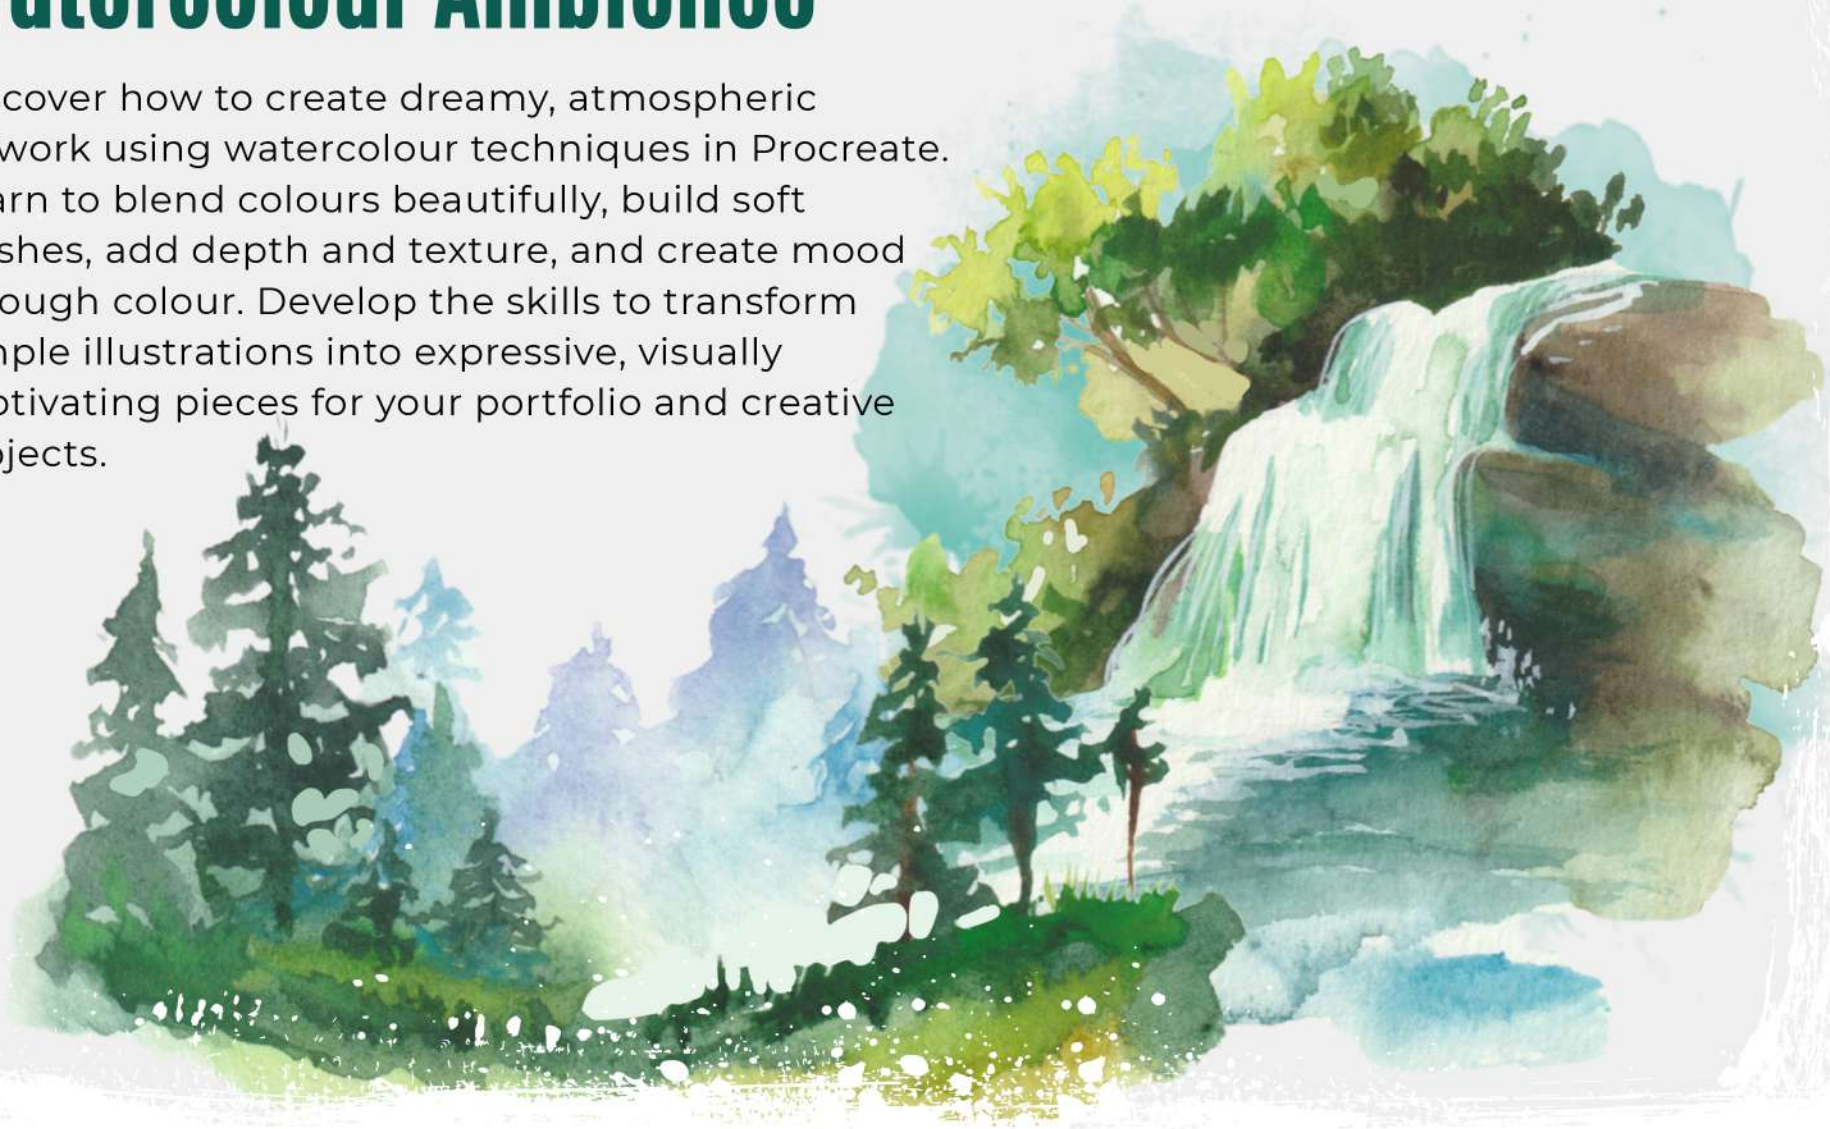

Animation in Procreate

Bring your illustrations to life with Procreate. Learn to create smooth, engaging animations and transform static artwork into captivating motion pieces—building the skills to create dynamic content for your portfolio, social media, and creative projects.

Watercolour Ambience

Discover how to create dreamy, atmospheric artwork using watercolour techniques in Procreate. Learn to blend colours beautifully, build soft washes, add depth and texture, and create mood through colour. Develop the skills to transform simple illustrations into expressive, visually captivating pieces for your portfolio and creative projects.

Portfolio Development

Turn your Procreate skills into a strong, professional portfolio. Learn how to curate and present your best work, develop a cohesive creative style, and showcase your projects effectively. Get guided assistance in building a portfolio that reflects your skills and helps you confidently present your work to potential clients and opportunities.

Why *Choose* Design Arc Acdemy

I was initially hesitant to join the Procreate Interior & Architecture course because it was online, but it turned out to be a great decision. Ishita ma'am was very patient and always ready to clear doubts even beyond class hours. The course is totally worth it and boosted my confidence in digital interior design.

-Akash

I recently joined the Interior Design in Procreate course at Design Arc Academy and had a great experience. The teaching was simple, beginner-friendly, and focused on practical learning. I gained confidence in digital interior sketching and creating room designs. Highly recommended for anyone starting procreate Interior & architecture course .

-Vaibhavi

I had a wonderful experience in the Interior Design in Procreate course. The teacher is extremely talented, patient, and explains concepts in a very clear and practical way. I learned many new interior sketching and rendering techniques and gained great confidence in creating digital interior designs. Thank you for such an amazing learning experience.

-Preeti Aggarwal

It was a really great experience learning Interior Design in Procreate online. The faculty is very supportive, and Ishita ma'am is always there to clear our doubts. Recorded lectures are shared after every class, which makes revision easy. Highly recommended. Thank you!

-Shruti Kale

Quality learning and definitely added value to my work also special thanks to the instructor to always be there to help in every detail requirements. Great experience guys!!!
