

3D

CHANGING THE WORLD WITH VIRTUAL GARMENTS

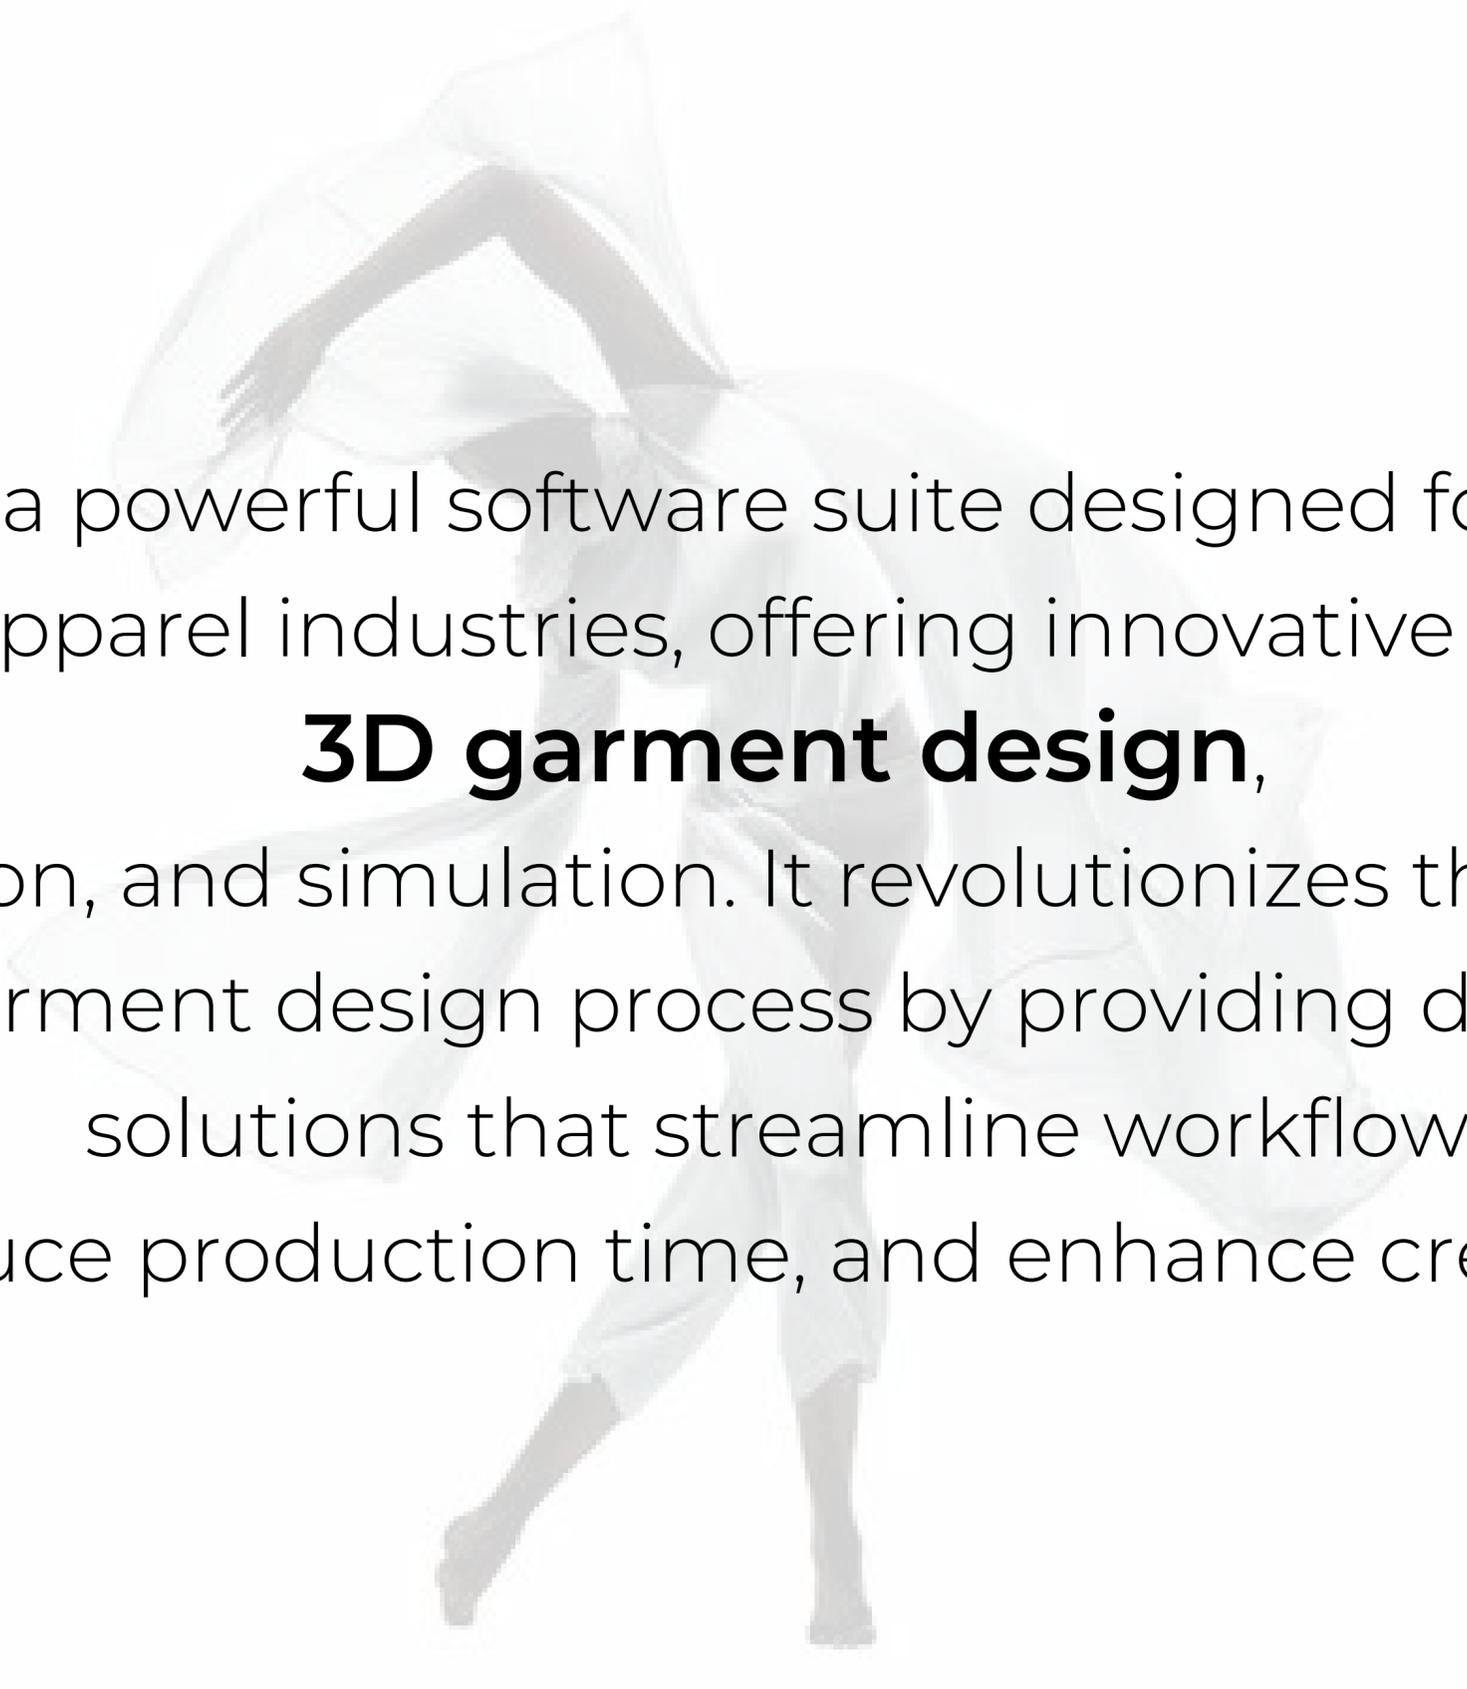

Create true-to-life 3D garments and perfect your ideas before they go into production

Introducing CLO 3D The Future of Fashion.

Enroll today

and be at the forefront of the
digital revolution in the fashion industry.

CLO is a powerful software suite designed for fashion and apparel industries, offering innovative tools for **3D garment design**, visualization, and simulation. It revolutionizes the traditional garment design process by providing digital solutions that streamline workflow, reduce production time, and enhance creativity.

01

Complete Software Introduction

"Explore the foundation of digital design with an in-depth introduction to **CLO 3D** software and its versatile tools."

ed.

02

Creating Basic Garments

"Master the essentials of fashion creation by crafting basic garments – skirts, tops, and pants with precision and flair."

CENTRO OFICIAL CERTIFICADO

03

Garment Variations & Customization

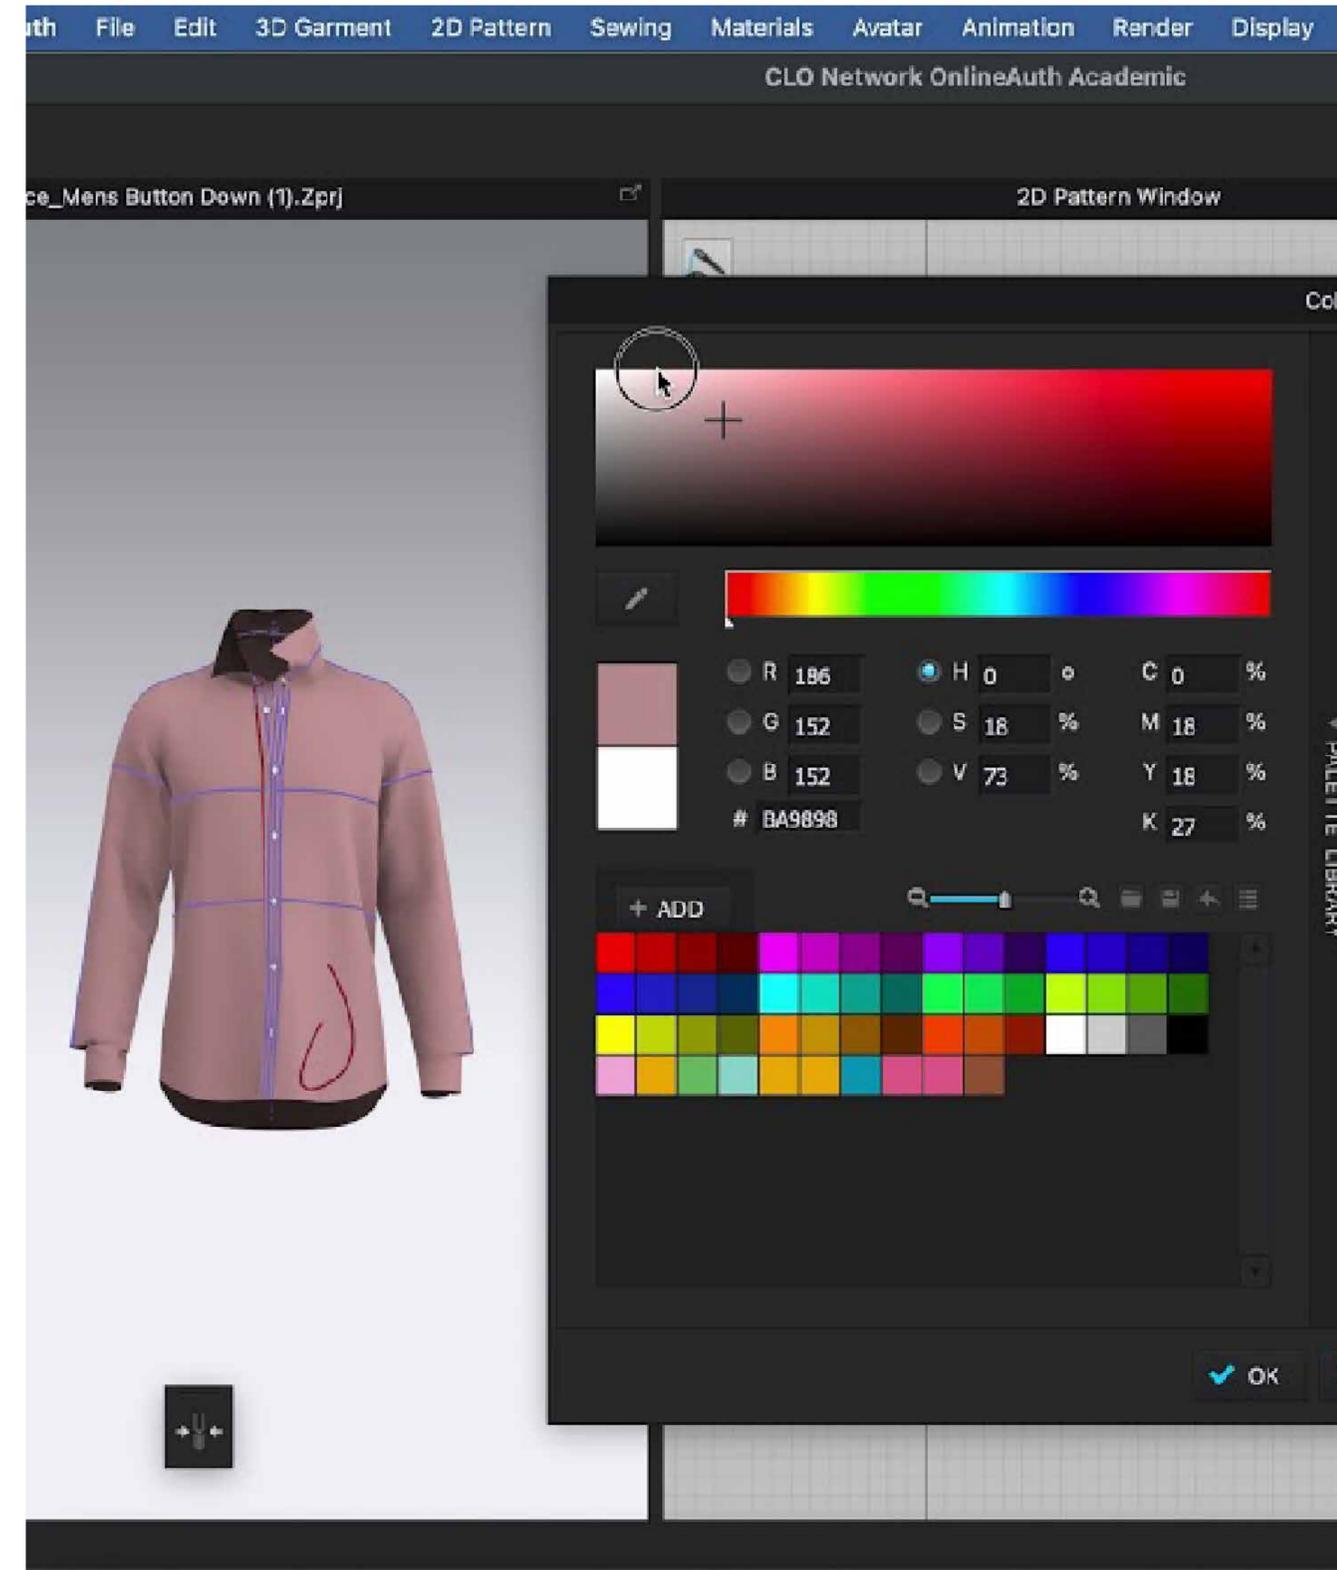

"Elevate your designs by introducing variations to basic garments, showcasing your creativity in garment structure and style."

04

Fabric & Color Transformation

"Change fabric types, apply realistic textures, adjust transparency, and experiment with unlimited color options."

05

Prints, Logos & Surface Design

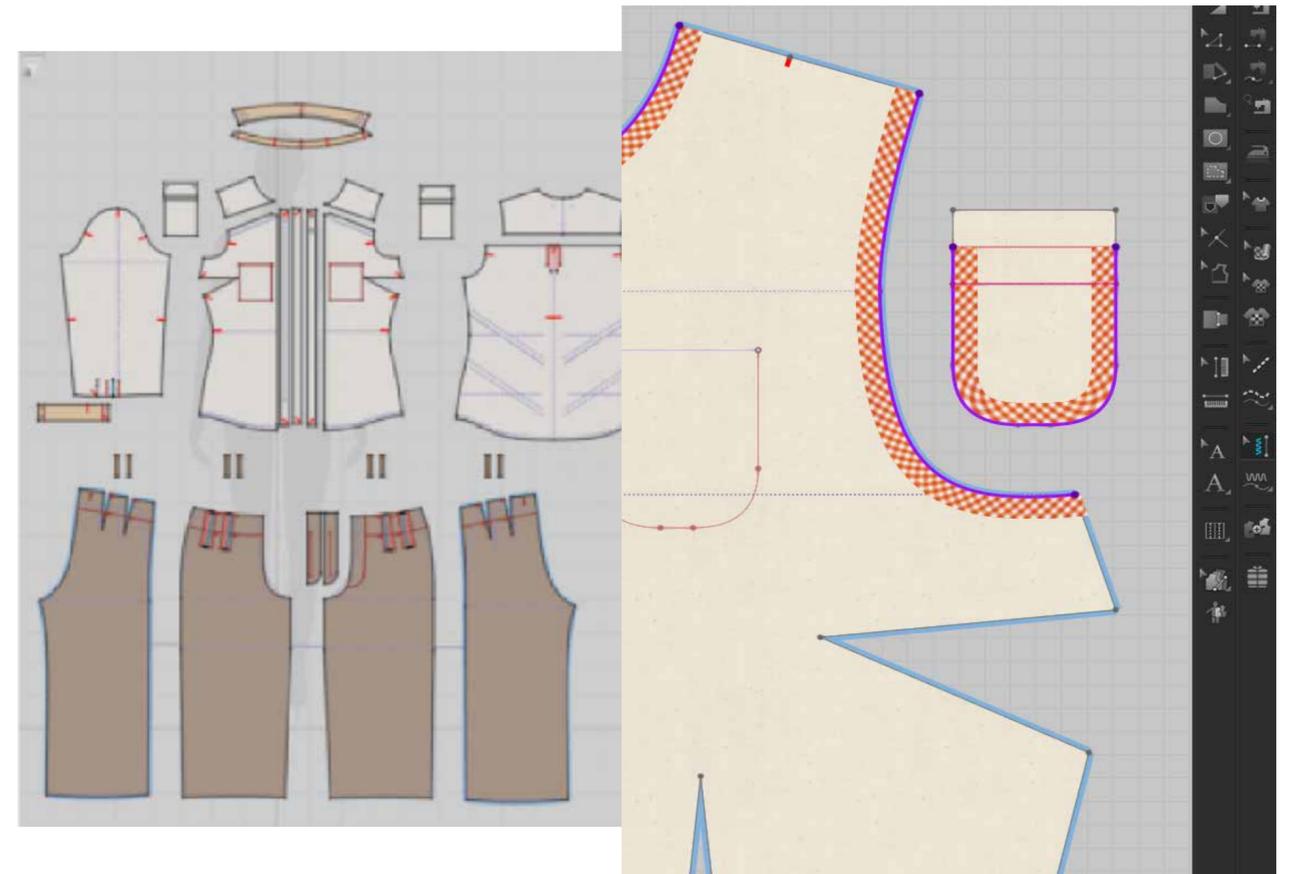

"Add custom prints, photos, logos, textures, fur effects, and embroidery to create unique designs."

06

Advanced Garment Details

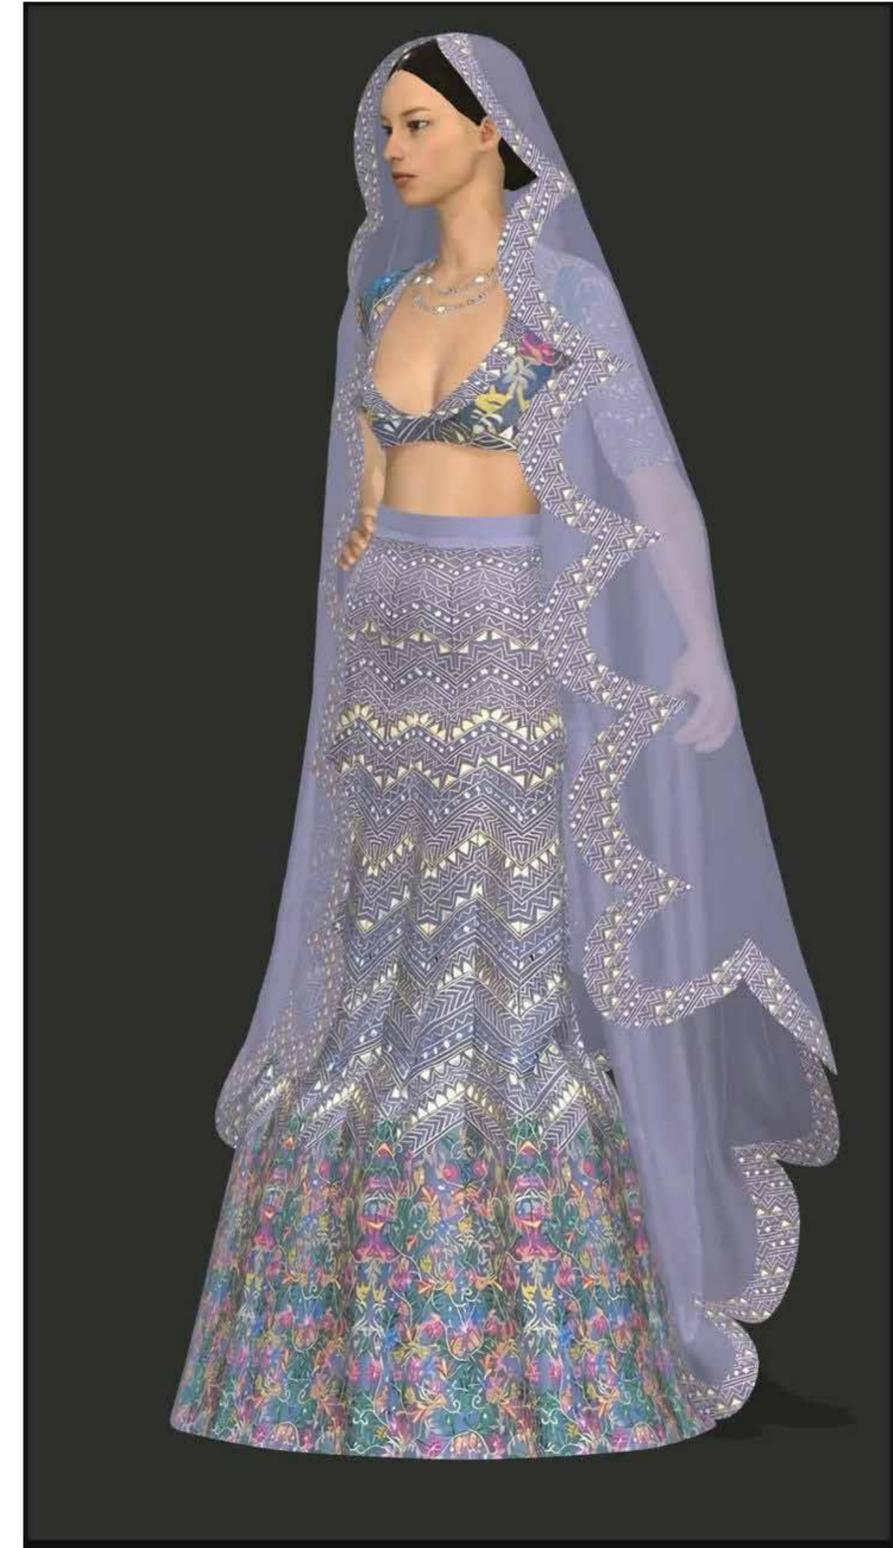

"Learn to add collars, ruffles, cutwork, zips, buttons, binding, and piping for professional finishing."

07

Embroidery & Decorative Techniques

"Create realistic embroidery patterns and decorative stitch effects.."

08

Avatar Styling & Dressing

"Add garments to both male and female avatars, style them, and adjust body measurements."

09

Accessories & Jewelry Styling

"Enhance your design presentation by adding jewelry and fashion accessories to avatars."

10

Pose & Fashion Presentation

"Change avatar poses to create strong fashion editorials and presentation visuals."

11

Background & Stage Setup

"Design professional backgrounds and stage setups for photoshoots and ramp shows."

12

Rendering & Realistic Output

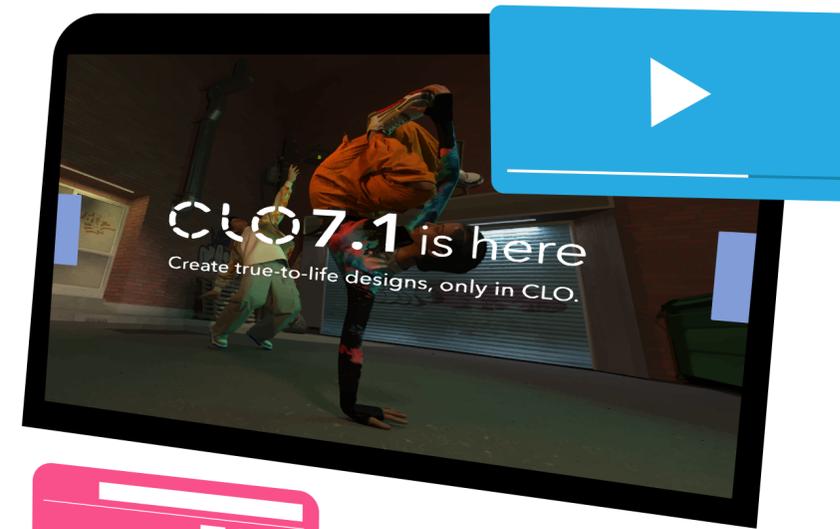

Create high-quality, realistic garment renders for portfolios and client presentations.

13

Video & Snapshot Creation

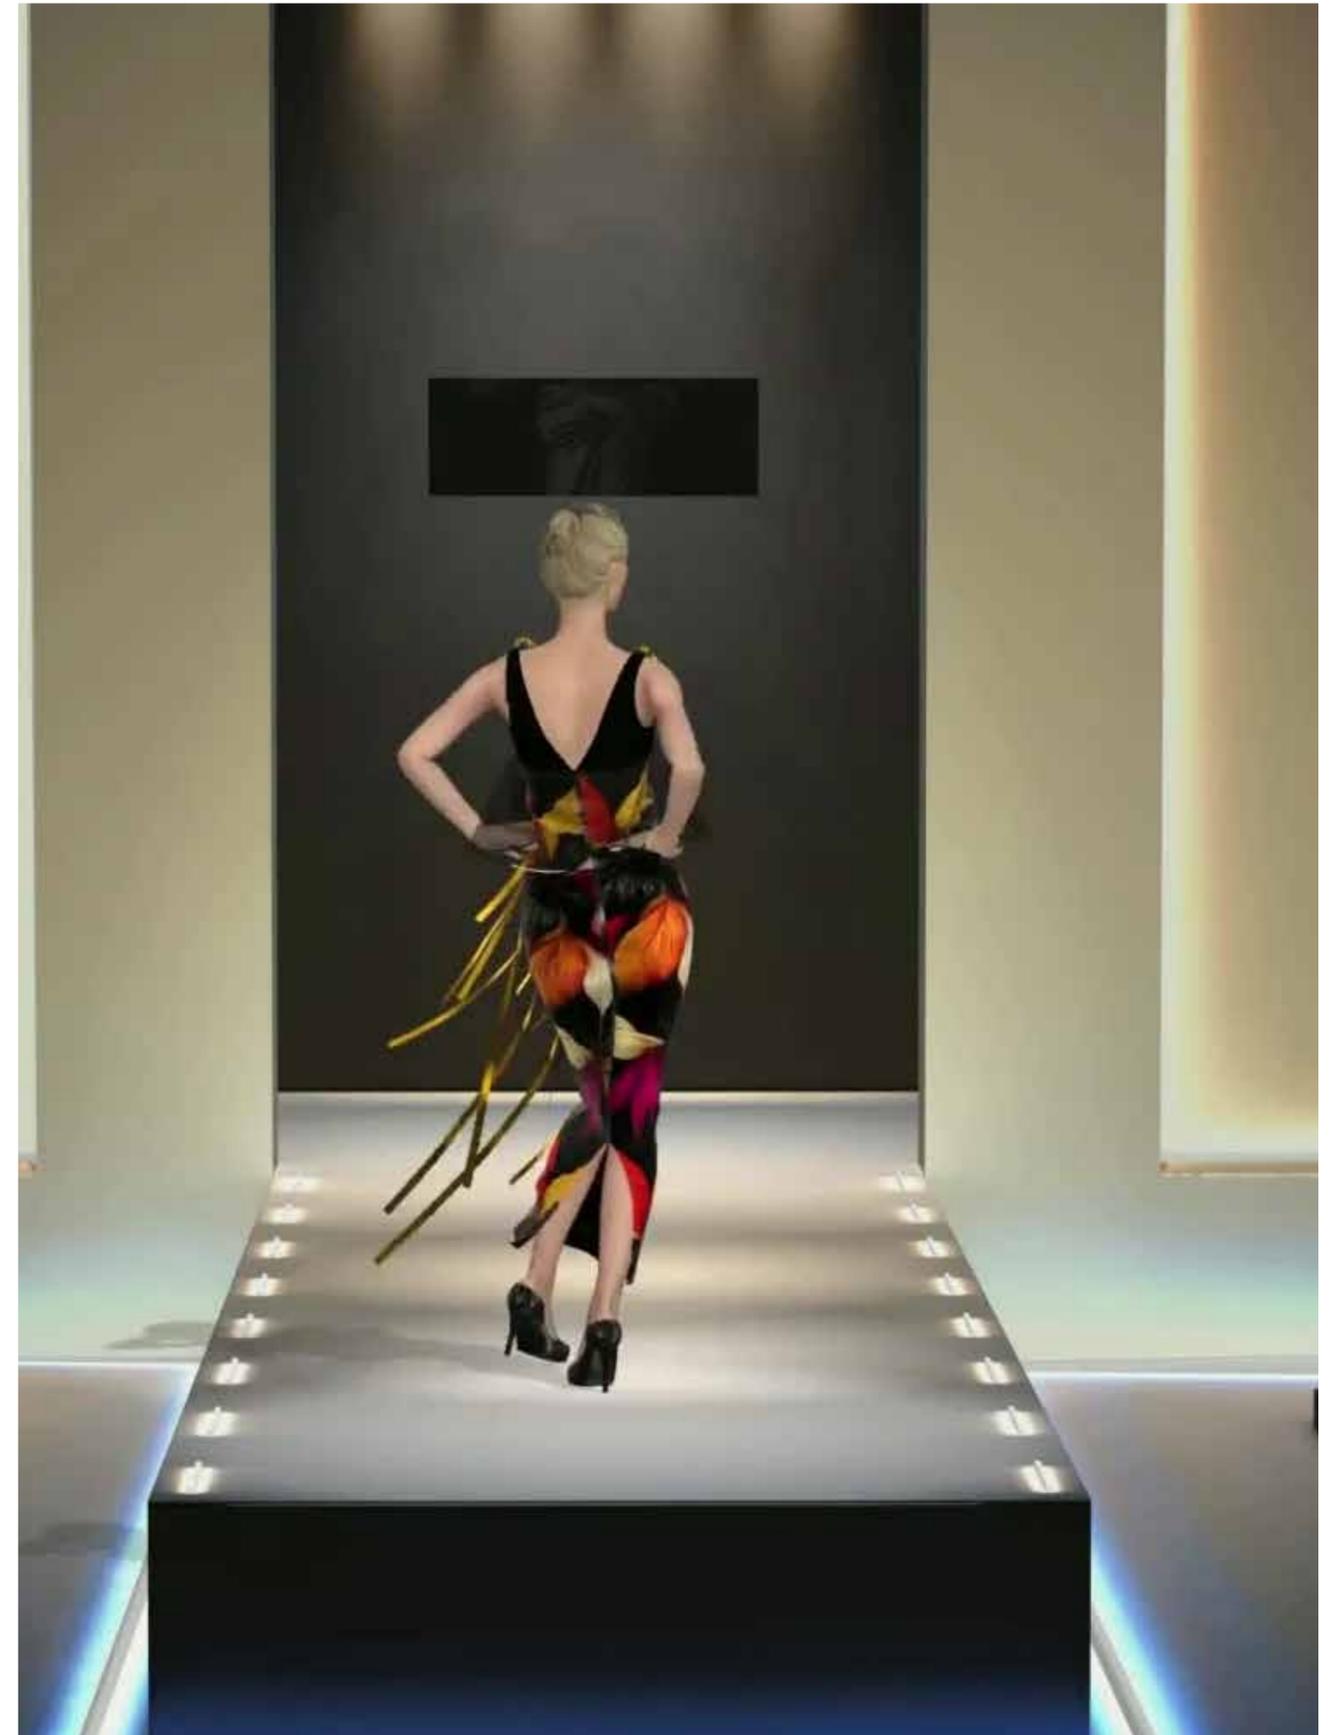

Generate fashion videos, snapshots, and animated garment simulations.

14

Ramp Walk Video Production

"Conclude your digital fashion journey by creating mesmerizing ramp walk videos, showcasing your designs in a captivating and dynamic fashion spectacle."
